A Safekids message

Safekids Whare

Safekids opened the first exhibition of our interactive Whare in December 2016 at Auckland City Hospital. The Safekids Whare is an engaging experience leading the audience through the rooms of a house with educational interactive messages relating to 9 major home injury risk areas: drowning, falls, choking, driveway runover, safe sleep, poisoning, burns, cutting and piercing and button battery safety. You can visit the Whare at the Hospital on Level 5 between 10am to 3pm until Friday 9 December. On December 10 it will be at the Western Community Centre in Hamilton! Don't miss this experience. The Safekids Whare is sponsored by Starship Foundation and will be transported by Mobil to ten regions around the country. You are welcome to participate and we'll keep you updated about the locations.
